exe Program type: Windows EXE System: Windows Dlls: no Spanish Word Game, for Android Release date: 2021-08-16 Current version: 1.50 File size: 299.59 MB Compatibility: Android 4.4 and up Program type: Android APK System: Android Comments This is a modified version of the game Spanish Word Game 1.2, I have modified the board size and the added some new words. Currently I've been using this version of the game for months and it works fine, but I've decided to create this release. The game follows the same concept, it uses the same board size and the same rules, but the letters are in Spanish and the board has been modified. Spanish Language: This version uses the Spanish as the language of the game. Board Size: I've decided to increase the board size from 6x6 to 8x8 in order to improve the game. New words: Added approximately 100 new words to the game. Features: It is a platform version of the game, so it can be played on smartphones and tablets (Android and iOS). Installation: Download the game from the Google Play Store or the Apple App Store. Install the game on your Android device. Rules: It is a word search game, you need to find the word on the board in a specific amount of time. It is possible to play the game on smartphones and tablets, but you need to press the pause button in order to access the information about the game and the board. It is possible to play the game in the landscape and portrait position, but the board is at the top. The game can be completed in approximately five minutes, or you can complete the game in approximately 20 minutes. It is a spanish version of the game, so most of the words are spanish, but some of the game is in english. If you have any doubts about the game, please write me an email. Virus and Malware Reports of "ransomware" on Play Store. The game uses a.wav file in order to play the sounds, you need to pay \$1.99 to remove the sounds and keep the game free of viruses. Once the game has been removed from the Play 82157476af
